**LC**  
Life Class  
**steel line**

Life Class di Steel Line è un progetto d'arredo pensato all'insegna del dinamismo che si alimenta con le forze propulsive del design.

Ricerca, sperimentazione, innovazione, contemporaneità, in una evoluzione continua e concettuale: nessuna staticità, ma un mix composto da eccellenza e creatività, dal quale prendono forma tavoli, sedie, divani e complementi.

Life Class è un laboratorio di pensiero progettuale dove prendono vita le nuove eleganti collezioni ad alto contenuto di design, destinate per le loro caratteristiche a vivere in perfetto equilibrio tra collezionismo e alto artigianato.

Un percorso itinerante che inizia dalla conoscenza e dalla qualità dei materiali impiegati per giungere alla creazione di prodotti nei quali traspaiono tutta la creatività e la manualità del "Made in Italy" più vero.

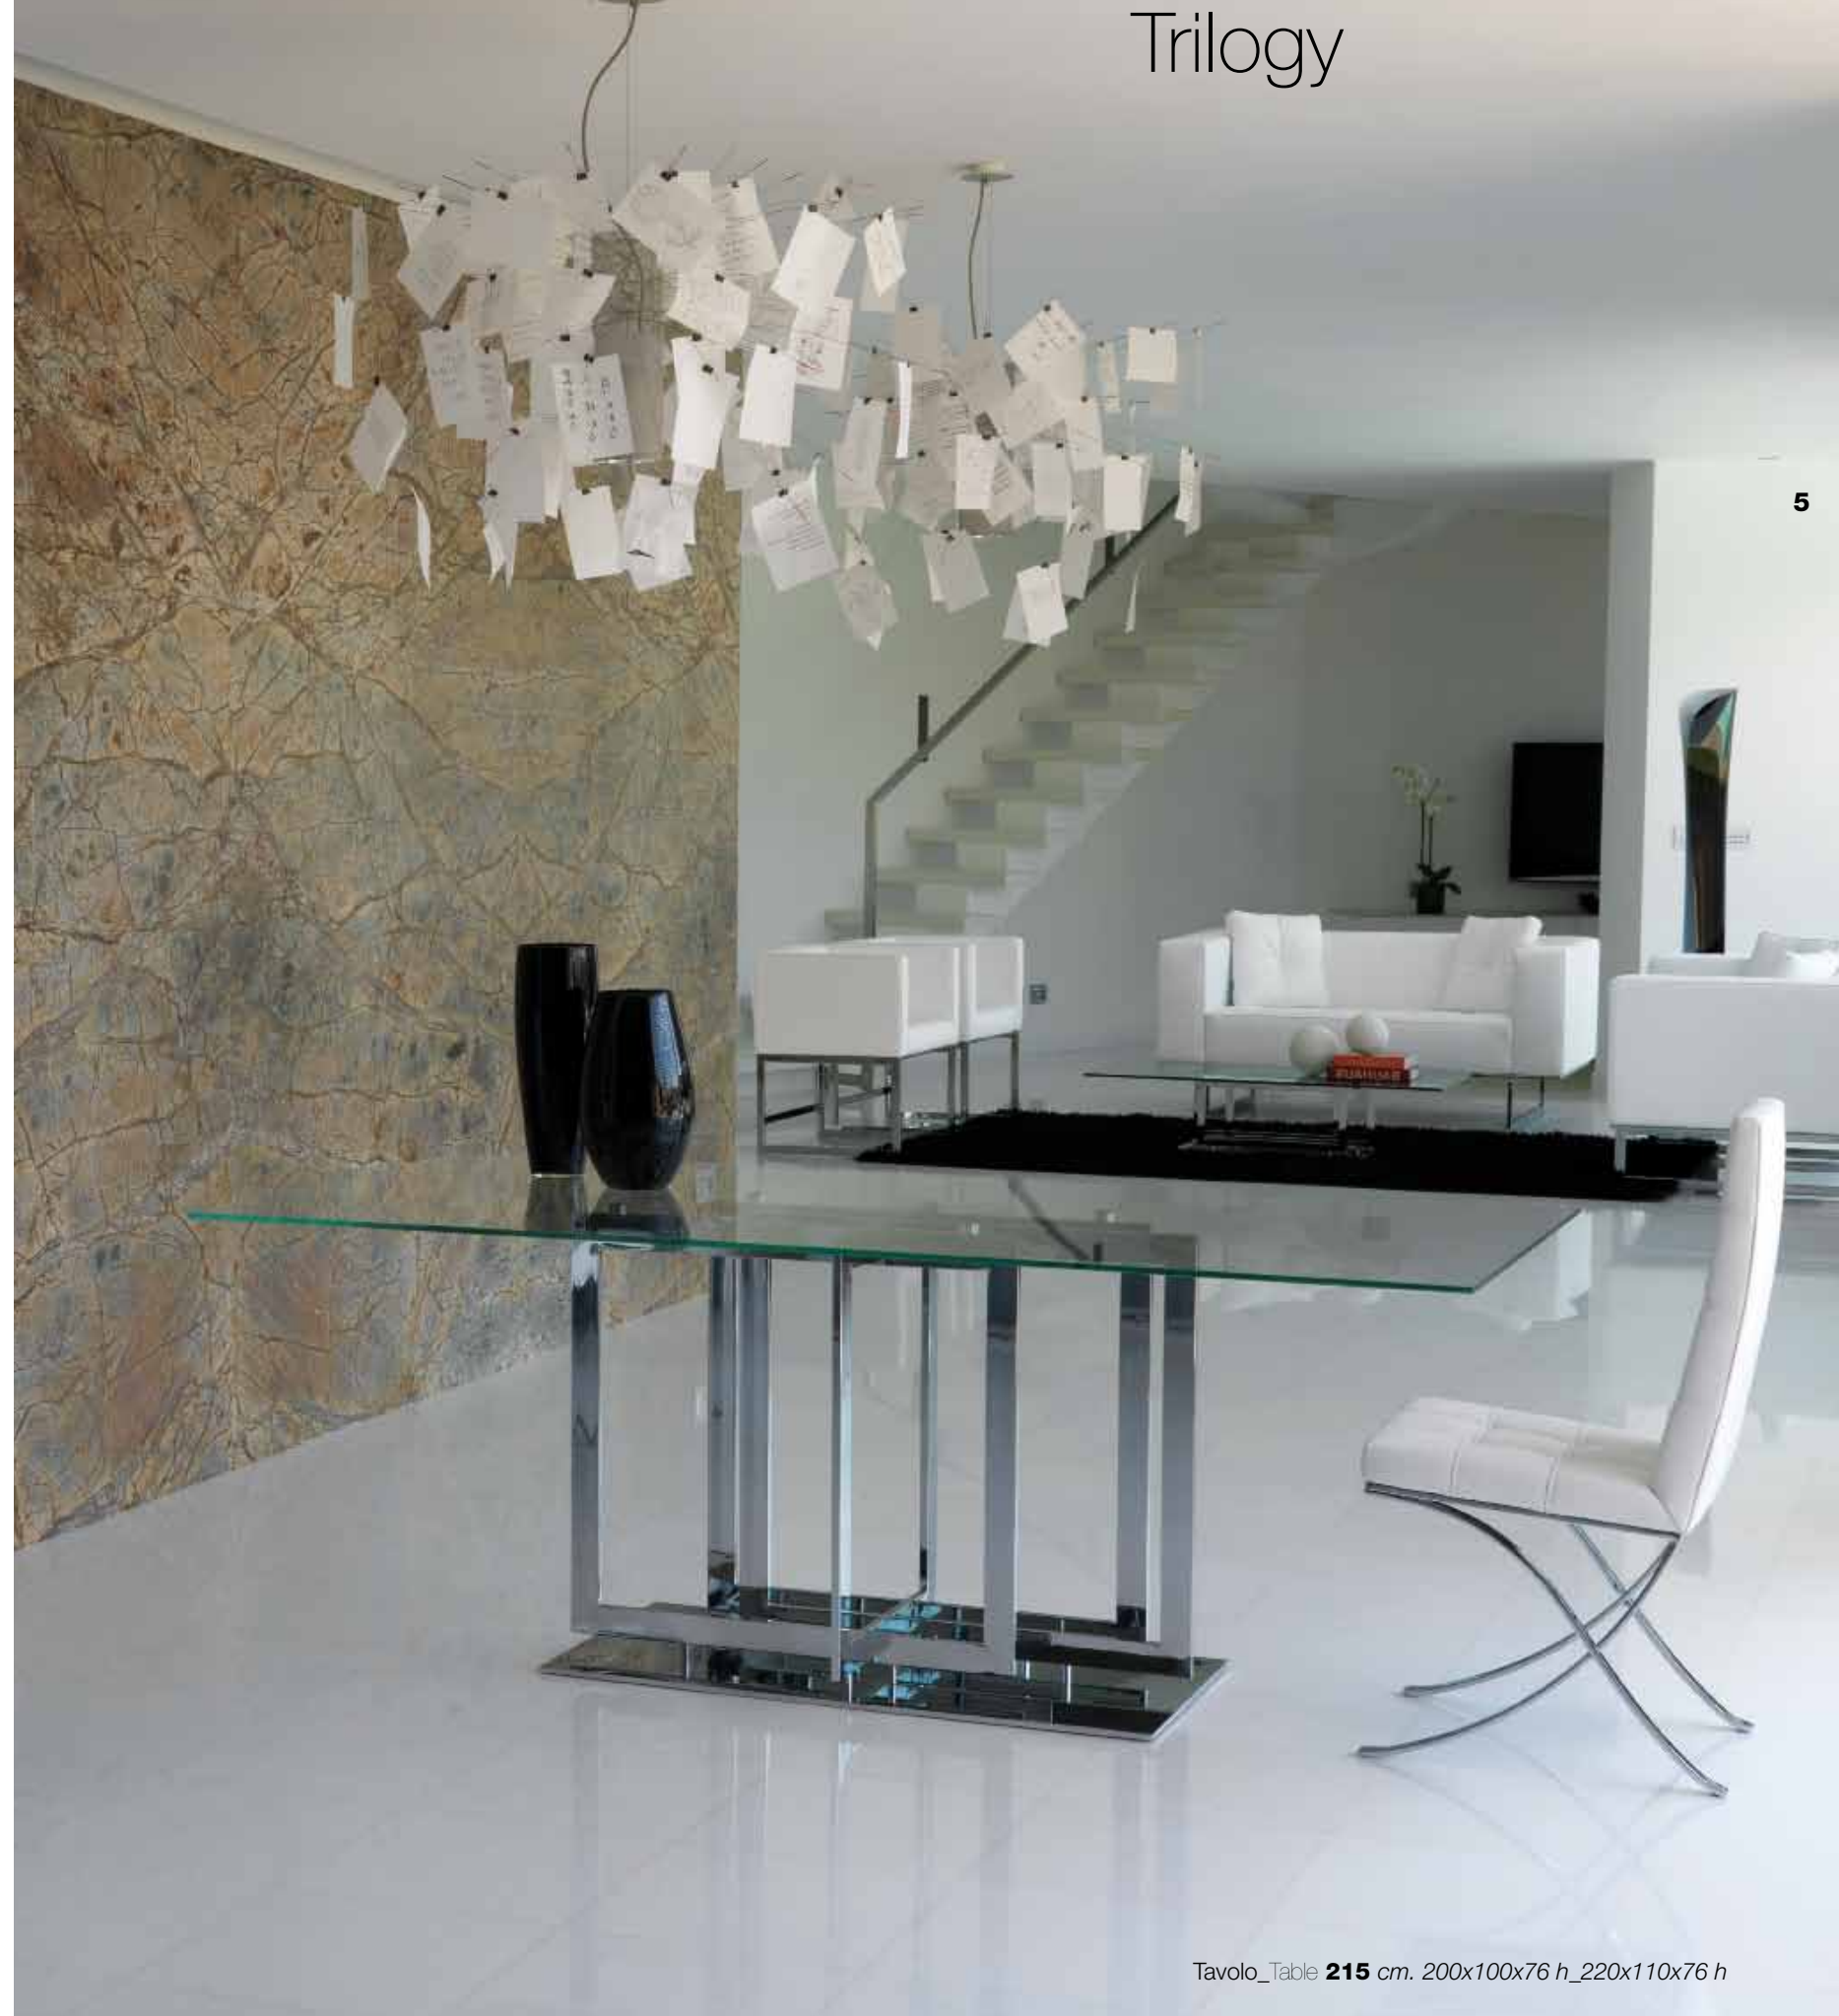

Life Class by Steel Line is a furnishing project designed around an idea of dynamism that feeds off the propelling forces of great design.

Research, experimentation, innovation and contemporary style are in constant and conceptual evolution: nothing is static - on the other hand - this is mix of excellence and creativity, where tables, chairs, sofas, and occasional furniture take shape.

Life Class is a workshop of design thinking where new elegant collections come to life. These are collections with the highest level of design that, thanks to their features, are destined to live in perfect balance between collection furniture and master artisan pieces. This is a travelling journey that starts from the know-how and the high quality of the materials used, and ends in the creation of products that are full of the creativity and manual skills of the truest "Made in Italy".
